Lynd Products Limited

Environmental Policy/Mission Statement

Lynd Products Limited is committed to protecting the environment, the health and safety of our employees, and the community in which we conduct our business. It is our policy to seek continual improvement throughout our business operations to lessen our impact on the local and global environment by conserving energy, water and other natural resources. We are committed to environmental excellence and pollution prevention, meeting or exceeding all environmental regulatory requirements, and to purchasing products which have greater recycled content with lower toxicity and packaging, that reduce the use of natural resources.

Environmentally Preferable Purchasing (EPP) Policy

The company has an ongoing policy to purchase products and services that have the following environmentally friendly attributes with acceptable parameters for price, quality and delivery:

- Maximizes post-consumer recycled content.
- Minimizes packaging and other waste, the company actively recycles outer cartons.
- Minimizes toxicity.
- Are durable and reusable.
- Are more locally available to minimize transportation.
- Are made from sustainably produced materials.
- Conserves energy, water and other natural resources.
- Actively monitor our delivery methods for carbon footprint.

Environmentally preferable products and services that are comparable in quality to their standard counterparts will receive a purchasing preference. In situations where the most environmentally preferable product is unavailable or impractical, secondary considerations will include production methods and the environmentally and socially responsible management practices of suppliers and producers. Environmentally preferable purchasing is part of our long term commitment to the environment. By sending a clear signal to producers and suppliers about this commitment, we hope to support wider adoption of environmentally preferable products and practices.
